PROFESSIONAL SUMMARY

HCI Master's graduate and AWS Certified Solutions Architect with a unique blend of Full Stack Engineering and Data Analytics expertise. Proficient in building data-driven applications using TypeScript, React, Node.js, and PostgreSQL, while utilizing Python and Power BI for deep analytical insights. Experienced in bridging the gap between human requirements and technical implementation through 6 years of client-facing commercial roles.

CORE COMPETENCIES

Full Stack: React, Node.js, TypeScript	Data: Python (Pandas), SQL, Power BI
Cloud: AWS Architecture & Deployment	CI/CD & GitHub Actions
Database: PostgreSQL & MongoDB	HCI: UX Research & Human-AI Interaction

KEY PROJECTS

JobFlow - Personal Job Tracker (Full Stack)

Developed a complete job application tracker using React, TypeScript, and Node.js. Architected a PostgreSQL database for application management and implemented CI/CD pipelines for automated testing and cloud deployment.

Customer Shopping Behavior Analysis (Data & BI)

Cleaned 3,900+ records in Python; engineered features in PostgreSQL to identify high-value customer segments. Built interactive Power BI dashboards that surfaced revenue patterns and recommended targeted marketing strategies.

Interveu App Redesign (HCI / UX)

Conducted user research and usability testing; redesigned accessibility-focused prototypes in Figma, achieving a 25% improvement in user retention through human-centered design principles.

WORK EXPERIENCE

Sales Representative (Data-Driven Stakeholder Management) Cooperl, Shanghai	2017 - 2023
- Leveraged CRM analytics to manage pipelines and coordinate cross-functionally with logistics and finance for 100+ accounts. - Exceeded quarterly growth targets by 30% through performance tracking and data-informed e-commerce optimizations. - Translated complex business needs into technical delivery workflows, ensuring high-quality client outcomes and revenue growth.	

EDUCATION & CERTIFICATIONS

MSc Human Computer Interaction - University College Dublin | 2.1 (Data Analytics, NLP, ML, AI Ethics)

AWS Certified Solutions Architect - Associate (SAA-C03) | AWS Cloud Practitioner

Microsoft Python Development | Google Data Analytics | MongoDB for SQL Experts

TECHNICAL SKILLS

Dev: TypeScript, Node.js, React, JavaScript, Express, Git, GitHub Actions, CI/CD
Data: Python (Pandas, Scikit-learn), SQL, PostgreSQL, MongoDB, Power BI, Tableau, R
Cloud/Tools: AWS (RDS, S3, Lambda), Figma, Linux, REST API Design
