

Meng Yu

+353 89 202 9867 | comeng.yu@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Software engineer and data analyst with hands-on experience building AI agents, full-stack web applications, and data pipelines. AWS certified with six years of client-facing experience delivering measurable business results. Holds AWS, Google Data Analytics, and Microsoft Python certifications.

EDUCATION

MSc Human Computer Interaction — University College Dublin | 2.1 2023 – 2024

- Modules: Data Analytics, Machine Learning, AI Ethics, Human Language Technology

BA English (Business Administration) — Jiangxi Normal University, China | 2.1 2012 – 2016

- Focused on: Digital Marketing, Project Management, Accounting and English proficiency

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03) · AWS Certified Cloud Practitioner (CLF-C02)
- Google Data Analytics · MongoDB for SQL Experts · Microsoft Python Development

PROJECTS

Hotel Ops Assistant Agent | *Python, OpenAI API, FastAPI, SQLite* [GitHub ↗](#) Jun 2026

- Built an AI agent for hotel operations using OpenAI function/tool calling — queries a live SQLite PMS database to answer natural language questions about room occupancy, arrivals, departures, and revenue forecasting.
- Implemented conversation memory, guardrails, and a dark dashboard web chat UI using FastAPI. Live demo: flick-pork-favorite.ngrok-free.dev

JobFlow — Job Application Tracker | *React, TypeScript, Node.js, PostgreSQL* [GitHub ↗](#) Mar 2026

- Built a full-stack SPA with React/TypeScript frontend and Node.js REST API backend; designed PostgreSQL schema and implemented CRUD endpoints.
- Deployed to cloud (Render) with automatic CI/CD from GitHub. Live: jobflow-vicw.onrender.com

Customer Shopping Behavior Analysis | *Python, SQL, Power BI* [GitHub ↗](#) Jan 2026

- Cleaned 3,900+ transaction records using Pandas; engineered features and loaded into PostgreSQL; wrote advanced SQL queries to identify high-value customer segments.
- Built an interactive Power BI dashboard; recommended loyalty programs and targeted marketing campaigns.

Interveu App Redesign with Enduræ | *UX Research, Figma* [Github. ↗](#) Apr – Aug 2024

- Conducted user research and usability testing; identified pain points and improved interface accessibility.
- Redesigned app prototypes using Figma, achieving a 25% improvement in user retention and earning a 4.2 GPA for the capstone project.

WORK EXPERIENCE

Sales Representative | Cooperl, Shanghai, China | Full Time Feb 2017 – Sep 2023

- Consistently exceeded quarterly sales targets; expanded market reach by 30% through new e-commerce and retail channels.
- Managed 100+ client accounts using CRM tools to track pipelines and forecast revenue.
- Coordinated with logistics and finance teams to resolve issues and ensure timely delivery, building cross-functional collaboration skills.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, matplotlib, scikit-learn), TypeScript, JavaScript, SQL, R

AI & Agents: OpenAI API (function/tool calling), FastAPI, LLM integration, prompt engineering

Frontend: React, TypeScript, HTML/CSS, Figma, UX Research

Visualization & BI: Power BI, Tableau

Databases & Tools: PostgreSQL, SQLite, MongoDB, Git, GitHub Actions

Cloud Platforms: AWS (RDS, S3, Lambda), Azure (Blob Storage, Entra ID)
